Provider Alert

To: Sharp Health Plan Providers and Provider Office Staff
From: Sharp Health Plan
Date: February 8, 2022
Subject: Free at-home COVID-19 tests and N95 face masks now available

Attention Provider Partner:

The Biden administration is making a certain number of at-home COVID-19 tests and N95 face masks available for free. Please see below for details.

Free at-home COVID-19 tests

- Patients can order free tests online at COVIDTests.gov.
- The program will limit the number of tests sent to each residential address to four tests.
- Tests will usually ship within 7-12 days of ordering.

Free N95 face masks

- Patients can get three N95 face masks per person pending availability.
- Nearly all the pharmacies and community health care centers that participated in the government's free vaccine program have agreed to be pickup points for the free mask program. This means most major chains, such as CVS Pharmacy®, Rite Aid® and Walgreens® will have them, along with many independent locations.
- Patients may want to call in advance to ensure a location has masks available for pickup.

Please refer patients with questions to our COVID-19 resource center at sharphealthplan.com/covid19. If you or your office staff have questions, visit sharphealthplan.com/for-providers/covid19 to learn more.

Sincerely,

Sharp Health Plan
